MISSOURI BOTANICAL GARDEN
GEORGE ENGELMANN PAPERS Ammual serve et de de lever Dødeg we look bæk on a sen'es of eleven years Time the foundation of our Aradency, and can do so with pleasure and with prode, of we have not rureded as well, as seleven years ago some of us may fondly have hoped, we should or rould; if we have not raised a palace to soience, and filled it with the natural productions of our and the other countries of the globe, if we have not issued volumers and volumes of socientific discoveries to enlighter the world; we have done more than could reasonably be expected from a few artive men sko had only few hours, left to Them by professional or businessimes avorables and such as would be devoted by most person. to recreation on assumement of to give to their scrientific lebors, and whose percenting means smalled them to hold to gether what they had acremillated of soientific trasures, and to publish in modest numbers the results of their researches and explorations. It fills us with pleasure and with pride, That we have been able to gather together such as museum linthelange thele apstory their highly Valenble library Shoth gon see in the adjoining Thoom, and to proclaim to the scientifer world thought in numbers of our publishings that out here on the backs the Merssingipe here in a this vast commenty of budy men, some at least fond inclination and leisure to prosecute The more abstract but worke the less insportant?
